Summary

Computer Science (AI & DS) student (Class of 2028) passionate about full-stack web development and scalable application design. Skilled in building modern web applications using React, Next.js, Node.js, Express.js, and MongoDB, with hands-on experience in REST APIs, real-time systems, authentication, and collaborative platforms. Developed projects including a real-time code collaboration platform and AI-powered applications, demonstrating strong problem-solving and practical development skills. Quick learner with a keen interest in modern MERN stack technologies, clean code practices, and building impactful user-focused solutions in collaborative environments.

Education

Savitribai Phule Pune University — Pune, India

Bachelor of Engineering in Artificial Intelligence and Data Science — Oct 2024 – Jul 2028

CGPA: 8.73/10

Technical Skills

Languages: Java, Python, JavaScript, C
Computer Science Concepts: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving
Frontend: HTML, CSS, React.js, Bootstrap, Tailwind, Next.js, Material UI
Backend: Node.js, Express.js, REST APIs, Authentication (OAuth)
Databases: MongoDB, MySQL
Tools: Git, GitHub, Postman, VS Code, Docker

Experience

Open Source Contributor — Jul 2025 – Oct 2025

GirlScript Summer of Code (GSSoC) — *Remote, India*

- Ranked 31st among 20,000+ contributors by delivering consistent, high-quality software contributions
- Developed features and resolved bugs across multiple web projects, improving functionality and user experience
- Collaborated with mentors and global teams using Git workflows and code reviews

Open Source Contributor — Jan2026 – Mar 2026

Elite Coders Winter of Code (ECWOC) — *Remote, India*

- Ranked 67 among 5000+ contributors by contributing meaningful multiple pull requests.
- Contributed to real-world projects involving debugging, feature enhancements, and solution design

Super Contributor — Oct 2025

Hacktoberfest 2025 — *Remote, Global*

- Recognized for impactful open-source contributions across diverse international repositories
- Delivered critical bug fixes and feature enhancements

Projects

Wanderlust - Full-Stack Hotel Booking Platform – Repository - Live Link — Mar 2026

Node.js, Express.js, MongoDB, JavaScript, REST APIs

- Developed a full-stack booking platform using Node.js, Express, MongoDB, and JavaScript following MVC architecture
- Implemented Google Authentication (OAuth 2.0) for secure and scalable user authentication
- Integrated Razorpay (Test Mode) to handle booking payments end-to-end
- Built RESTful APIs for managing listings, bookings, and users, ensuring efficient data handling
- Enhanced backend stability through input validation, error handling, and middleware design

Achievements & Certifications

Top 35 Contributor: GirlScript Summer of Code 2025 (among 20,000+ participants)
Super Contributor: Hacktoberfest 2025
Top 70 Contributor: Elite Coders Winter of Code 2026 (among 5000+ contributors)
Certifications: Postman API Fundamentals, Full Stack Web Development
